

SOURCING &
PROCUREMENT

From wire, cable, and electromechanical components to custom, hard-to-find parts, our sourcing experts will specify, source, negotiate price, assure quality, and deliver the items in your bill of materials.

Need access to a manufacturer not on this list? Call us at 800-274-6266.

Control Panel Manufacturing Services

Simcona operations, engineering, and production teams work with your team to build to any specifications. Our assembly expertise includes:

- Built-to-print or custom builds
- Power applications
- Motor applications
- Automation applications
- Interface applications
- Design & Engineering
- Manufacture, Cost, and Service Design
- Design & Manufacturing of PLCs
- Design & Manufacturing of SCADA Systems
- Application Specific Embedded Control Systems
- Conceptual design
- Hardware and component specification
- Testing, installation, and start-up
- Prototyping & Testing
- Multiconductor Cable

Multiconductor Cable Manufacturing Services

Simcona's dedicated cabling experts and state-of-the-art, UL/CS-certified facility specialize in manufacturing custom assemblies from start to finish.

Building cable solutions from the ground up has been one of our core competencies for 60+ years. Our experts work with you to help identify flaws and improve existing wire and cable designs. We also can customize a cable and wire solution to fit your need regardless of the industry or application.

Our capabilities include:

- Planetary
- Buncher
- Twister
- Jacket
- Insulation
- Re-spooling

"Next Level" Solutions Include:

Warehousing Capabilities

Panel & Enclosure Modifications Custom & Standard

Re-spool Capabilities

Kitting Capabilities

Packaging Capabilities

Labeling Capabilities
